

About Laxmi Charities

WHO ARE WE

- Founded in 1973, Laxmi Charities is a registered non-profit society dedicated to promoting education and providing relief to those in need. There is a strong interest among stakeholders in committing to sustained financial support for the years to come. This ongoing financial backing will enable the organization to expand its reach and sustainably enhance its impact.

WHAT WE DO

About Laxmi Charities Scholarship for Academic Excellence

- The Laxmi Charities Scholarship for Academic Excellence recognizes and rewards students demonstrating outstanding academic performance. This program provides support to individuals who require additional financial aid to pursue their education. The scholarship not only acknowledges exceptional achievements but also provides long-term support through a multi-year funding program. Once selected, students remain eligible for the scholarship throughout their academic journey, from school to higher education, ensuring consistent financial assistance until they complete their studies. This program is designed to alleviate financial stress over multiple years of their education, allowing students to focus on their academic and personal growth without worrying about tuition or other educational expenses.
-

The program was found to be highly relevant to the socio-economic and geographical needs of beneficiaries in Tamil Nadu, offering hope and confidence to students and their families. The scholarships supported students from low-income families, ensuring continuity in higher education despite financial challenges. The majority of students demonstrated strong academic performance, with the program playing a key role in sustaining their educational journey. This highlighted the effectiveness and academic necessity of the support provided by Laxmi Charities. The intervention also led to a significant increase in higher education participation in Tamil Nadu, contributing to the state's gross enrolment rate.

IMPACT

- Over the last five decades, Laxmi Charities has supported over 2,00,000 students in pursuing their education. Most beneficiaries are aged 18-20, with nearly two-thirds being women. Additionally, more than 50% come from families earning less than ₹10,000 per month. The Laxmi Charities Scholarship for Academic Excellence empowers these students to pursue their chosen courses and receive the education they deserve.
